Update on Qualifications Process

To Prospective Proponents for Toll Roads and Water Projects:

The P3 Authority has made significant progress in the evaluation of the statements of qualifications (SOQs) submitted by Prospective Proponents in response to the “Request for Qualifications to Acquire a Concession to Finance, Operate and Maintain Toll Roads in Puerto Rico” and the “Request for Qualifications for the Implementation of Advanced Technologies for the Reduction of Non-Revenue Water for Puerto Rico Aqueduct and Sewer Authority”. The Authority expects to reach and approve a shortlist of Proponents for both projects by mid September. The results of the shortlists will be communicated by letter to each Potential Proponent that submitted an SOQ and will be made public. Subsequently, the P3 Authority expects to release requests for proposals (RFPs), including drafts of Partnership Agreements and technical schedules, for these projects by the end of September or early October. The P3 Authority is dedicated to ensuring a successful procurement process
