Answers to Request for Clarifications

RFQ 001-2018: List of Qualified Advisors - 2018

- 1. If we are already considered a Qualified Advisor pursuant to the list published by the P3A on December 15, 2017, do we need to resubmit a proposal in order to continue to be considered a Qualified Advisor?**

Firms that submitted a response to RFQ 002-2017 and RFQ 003-2017, can resubmit responses to RFQ 001-2018, if any information or qualifications for the relevant areas of expertise previously provided change. If not, and the firm is currently in the List of Qualified Advisors ("List"), will remain on the List.

- 2. If we are required to resubmit, what is the due date for proposals? There is no due date specified in the RFQ?**

Firms that submitted a response to a previous RFQ in 2017, and the firm is currently in the List, will remain on the List. Hence, it is up to the proponent to determine to resubmit a response to the RFQ if any qualification submitted originally has changed. There is no due date for the current RFQ.

- 3. If an entity is on P3A's list of qualified advisors the Authority's (posted on December 15, 2017), is the entity required to respond to RFQ 001-2018 in order to remain on the list of qualified advisors in 2018?**

Firms that submitted a response to an RFQ in 2017, can resubmit responses to RFQ 001-2018, if any information or qualifications for the relevant areas of expertise previously provided change. If not, and the firm is currently in the List of Qualified Advisors ("List"), will remain on the List.

- 4. We have reviewed the RFQ and would like clarification of the due date. We did not see a date mentioned on the portal nor the RFQ.**

There is no due date for the current RFQ. The Authority reserves the right to update the List from time to time.
